Introduction

The design elements, or visual language, that make up our house style attempt to convey — through imagery, color and appearance — the qualities that we want the Department of Homeland Security to be known for: being innovative and proactive in our mission and being accessible and direct with our public.

We are entrusted with the relentless protection and defense of America, its ideals, its way of life and its people. We are the trusted and authoritative partner to the state, local and private sector entities that share our mission. We are a 21st-century form of government and proud to protect our homeland.

And our communications must reflect our convictions.

The following pages introduce the foundations of our house style. The hallmarks of this visual language are the distinctive color palettes, the complementary typefaces, standardized uses of imagery and consistent placement of our signature. Our house style will ensure maximum recognition and a clean, contemporary look for all our communications.

These house style guidelines should be used in conjunction with the Seal and Signature Usage Guidelines, which provide more detailed information on usage of the DHS signature and its variations.

Branding and Our House Style

Our house style is a major component of our branding system. The objectives of our branding system are fourfold: to focus and build impact for the Department of Homeland Security, a modern and nonbureaucratic form of government; to unify and strengthen the department; to help state and local entities, as well as the general public, understand the role and structure of the department; and to streamline communication.

Our branding system must be clear from the public's perspective and make minimal use of acronyms, because an abundance of acronyms hampers clarity and directness.

Our branding system is not the same as our organizational chart. No more than two levels have been branded because too many layers and too many symbols suggest traditional government bureaucracy and an unfocused organization.

Every DHS communication must be branded with one — and no more than one — of the following signatures.

DHS Signature — For use on communications emanating from the cabinet level, the five directorates, or programs, locations and centers not directly linked to one of the Public Facing Entities shown below.

Public Facing Entities Signatures — For use on communications emanating from these organizations with high public visibility and interaction.

Public Facing Entities Signatures, Endorsed — Please refer to The Coast Guard Correspondence Manual or contact The Office of Government and Public Affairs of the U.S. Secret Service for more information on using these signatures.

Primary Color Palette

The Homeland Security signature should be reproduced in full color — Homeland Security Blue, Gray, Green, Light Blue and Red — whenever possible. The colors of the signature serve as the source for our house style color palettes.

Our primary color palette contains Homeland Security Blue and Gray from the signature and adds Dark Gray and White. These colors should be employed throughout our communications and are equivalent to the

PANTONE numbers listed in the table below. For 4-color process printing, refer to the CMYK values shown. For on-screen applications (video, broadcast), refer to the RGB Video values specified. For Web applications, refer to the RGB Web values.

The PANTONE and CMYK values provided can be used on both coated and uncoated paper when printing. Although variations in color will occur, try to match the colors as closely as possible.

The colors shown throughout this manual have not been evaluated by Pantone, Inc., for accuracy and may not match the PANTONE® Color Standards. Please refer to the current edition of the Pantone color formula guide. PANTONE® is a registered trademark of Pantone, Inc.

	Pantone®	C	M	Y	K	Video			Web		
		R	G	B	R	G	B	R	G	B	
Homeland Security Blue	2955 C	100	45	0	37	0	47	128	0	51	102
Homeland Security Gray	Cool Gray 6 C	0	0	0	28	176	177	179	153	153	153
Homeland Security Dark Gray	Cool Gray 11 C	0	0	0	79	54	54	54	51	51	51
Homeland Security White		0	0	0	0	255	255	255	255	255	255

Secondary or Support Palette

The other colors from the Seal — Homeland Security Red, Light Blue and Green — make up our secondary color palette, which are used to enhance our communications in backgrounds, headlines and other supporting design elements.

Homeland Security Red	187 C	0	100	79	20	165	0	33	204	0	51
Homeland Security Light Blue	307 C	100	16	0	27	0	112	178	0	102	153
Homeland Security Green	370 C	56	0	100	27	89	134	0	51	153	0

Typography

Typography plays a major role in shaping a brand because it helps create a consistent look and feel. For all Homeland Security communications, one typeface — Joanna MT — is preferred. This typeface has been chosen because it complements the look of the Homeland Security wordmark.

When Joanna MT is not available on your computer, you may substitute Times New Roman for Joanna MT.

ITC Franklin Gothic has been selected as a secondary or complementary font for Joanna MT. It may be used for headlines, subheads, captions and other supporting text.

When ITC Franklin Gothic is not available on your computer, you may substitute Arial for ITC Franklin Gothic.

Imagery — Introduction

Imagery is an integral and vital part of Department of Homeland Security communications. Visual imagery — specifically photography — conveys the spirit and energy of our homeland and helps bring its essence to life.

Since imagery will be used in applications from print to the Web, we must ensure that it consistently captures the best of our homeland, our employees and our commitment to proactive protection.

Following our house style will ensure that our communications will have a recognizable look and feel.

Two types of imagery are appropriate for our house style: conceptual and documentary. Conceptual imagery idealizes the homeland we protect and our ways of protecting it. Documentary imagery dramatizes our daily activities; these types of images may have a journalistic feel.

When preparing or selecting imagery, keep in mind these characteristics, which represent the essence of who we are.

Trustworthy	Reassuring	Authoritative
Accessible	Proactive	Protective
Resourceful	Innovative	Aggressive
Determined	Committed	

These imagery guidelines can also be provided to photographers to help them create original imagery for the DHS.

Please also consult the “Grid System” portion of these house style guidelines for a more complete understanding of how to use imagery in designs and layouts.

Conceptual Imagery — What We Protect

As these examples suggest, conceptual imagery highlights the natural attributes of the homeland we protect. Idealized portraits of our national symbols are also part of this image category.

If you are interested in using any of these specific images, please contact the source listed and reference the image number.

Conceptual Imagery — How We Protect the Homeland

In conceptual images that show how we protect the homeland, our actions and our homeland's protective infrastructure have been abstracted from specific, identifiable places, activities or people. This abstraction process makes this imagery different from the imagery that documents our daily activities.

If you are interested in using any of these specific images, please contact the source listed and reference the image number.

Documentary Imagery — Our Daily Activities

This type of imagery documents our daily activities; these types of images may have a journalistic feel. Our actions and interactions with the public are of an amazingly wide variety and so our documentary imagery will range correspondingly from the mundane to the dramatic.

Please consider the intentions of the communication when selecting an appropriate image.

If you are interested in using any of these specific images, please contact the source listed and reference the image number.

Cropping Images

Dynamic cropping can add drama to an image. Unusual colors or lighting, extreme close-ups and interesting angles may be emphasized through creative cropping. The focus of the image may be significantly altered and convey a different message than the non-cropped image.

By eliminating specific, identifiable places, activities or people from an image, cropping can be a way of making a conceptual image from a documentary image. This process is demonstrated in the first example below.

DHS Grid System Components — Introduction

The front-facing element of DHS communications — whether a brochure cover or a website homepage — follows a basic grid system. This grid system organizes the house style components in a consistent fashion, enhancing the public's recognition of what is and is not a DHS communication while streamlining design decisions.

The DHS Grid System is made up of four essential components:

- The image panel
- The information panel
- Primary and secondary messages
- The signature

The grid splits the front-facing element of a communication horizontally into two halves.

One half is the image panel. This image panel may contain a photograph or a color field in a color selected from the house style primary or secondary palette.

The other half is the information panel, which contains a short primary message in large type and, if needed, below the primary message, a secondary message in smaller type. If needed, a date can be added below the message(s).

The signature is always placed at the bottom of the information panel and aligns flush left with the message type. The signature clearspace, at minimum, must be respected at all margins.

The placement of the image and information panels can be switched to add variety to our communications. For some communications, the information panel will be more appropriate above the image panel.

<h1>Prevent Terrorist Attacks Within the United States</h1> <h2>Strategic Goal 1</h2> <p>Preventing and interdicting terrorist activity within the United States, whether international or domestic in origin, is the number one priority of the Department. Collectively we will assess, qualify, provide early warning and take preemptive action against potential terrorist threats. Coordination, communication, and strong partnerships between the Department and other federal, state, local and tribal law enforcement organizations are critical to our success. Working closely with international partners and using all legal means — both traditional and nontraditional — we will identify and halt potential terrorists.</p>																						<p>"The continuing threat of terrorism, the threat of mass murder on our own soil will be met with a unified, effective response."</p> <p>—President George W. Bush Remarks at the Signing of H.R. 5005 the Homeland Security Act of 2002. November 25, 2002</p>																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																															
<h3>1.1 Secure the borders against terrorists, mass entry of terrorism, and other illegal activity.</h3> <p>We will manage our borders to interdict terrorist activities by targeting unlawful migration of people, cargo, drugs and other contraband, while facilitating legitimate migration and commerce. DHS will enforce border security at ports of entry, on the borders, and even before potential threats can reach our borders. Through the continued deployment of the appropriate balance of personnel, equipment and technology we will create "smart borders". Not only will we create more secure United States borders but, in conjunction with international partners we will extend our zones of security beyond our physical borders. Identifying, prioritizing, and interdicting threats to our nation beyond our physical borders are highly effective ways to detect potentially hazardous cargo and deny entry to people before they arrive. Making our border security effective, smarter, and stronger significantly reduces the potential of terrorist threats entering our nation.</p>																						<h3>1.1 Strategies</h3> <ul style="list-style-type: none">Strengthen and integrate security at and between the ports of entry.Expand border control beyond our geographical borders through increased awareness within the maritime, air and land approaches to the United States.Implement a nationwide system for managing entry to and exit from the United States using biometrics and advanced technology.Build a unified, cohesive enforcement capability.Identify and interdict sources of support for weapons of mass destruction and other instruments of terror targeted at the United States.Increase the security of international shipping modes and methods, and of trade goods destined for the United States.Reduce the flow of illicit drugs and contraband into and out of the United States.Deny undocumented aliens from entering the United States.Expand and integrate industry partnership programs to engage the trade and financial communities and otherwise enlist the private sector in the fight against terrorism.Establish counter fraud strategies to detect illegal entry through fraudulent means.Reduce the threat of agricultural pests and diseases entering the United States via legal commerce, smuggling and non-compliant cargo.Coordinate efforts to sever connections between illegal drug trafficking and terrorism.Implement the Student and Exchange Visitor Program to permit entry of only eligible students and exchange visitors, and allow for monitoring them while they are in the U.S.																						<h3>1.2 Coordinate national and international actions to prepare for, and prevent terrorism.</h3> <p>We will effectively coordinate and communicate with other federal, state, local, and tribal governments, the private sector, and the American people. Increasing and coordinating information sharing between law enforcement, intelligence, and military organizations will improve our ability to counter terrorists everywhere. We will coordinate training and education across multiple levels both national and international ensuring common standards and approaches to recognizing key indicators of future terrorist actions.</p>																						<h3>1.2 Strategies</h3> <ul style="list-style-type: none">Assist the Department of Defense and Department of State to meet the goals and objectives of the National Security and National Military Strategies.Proactively conduct and coordinate "prevent and disrupt" law enforcement operations through the Department's Joint Terrorism Task Force, particularly with the FBI.Involve state, local, and tribal governments and the private sector in actions to prevent terrorism and reduce the consequences of terrorist attacks.Establish common preparedness standards and foster inter-agency coordination across all levels of government.Expand existing weapons of mass destruction, first response, and other nationwide initiatives.Promote interagency coordination and cooperation in support of international resident and advisor programs.Implement a National Training Plan that strategically supports DHS missions and goals and incorporates a comprehensive approach to train state, local, and private sector partners in core competencies.

Working closely with international partners and using all legal means — both traditional and nontraditional — we will identify and halt potential terrorists.</p>																
<div> <div> <h4>1.1 Secure the borders against terrorists, means of terrorism, and other illegal activity.</h4> <p>We will manage our borders to interdict terrorist activities by targeting unlawful migration of people, cargo, drugs and other contraband, while facilitating legitimate migration and commerce. DHS will enforce border security at ports of entry, on the borders, and even before potential threats can reach our borders. Through the continued deployment of the appropriate balance of personnel, equipment and technology we will create "smart borders". Not only will we create more secure United States borders but, in conjunction with international partners we will extend our zones of security beyond our physical borders. Identifying, prioritizing, and interdicting threats to our nation beyond our physical borders are</p> </div> <div> <h4>1.1 Strategies</h4> <ul style="list-style-type: none"> Strengthen and integrate security at and between the ports of entry. Expand border control beyond our geographical borders through increased awareness within the maritime, air and land approaches to the United States. Implement a nationwide system for managing entry to and exit from the United States using biometrics and advanced technology. Build a unified, cohesive enforcement capability. Identify and interdict sources of support for weapons of mass destruction and other instruments of terror targeted at the United States. </div> </div>																
<div> <div> <h4>1.2 Coordinate national and international actions to prepare for and prevent terrorism.</h4> <p>We will effectively coordinate and communicate with other federal, state, local, and tribal governments, the private sector, and the American people. Increasing and coordinating information sharing between law enforcement, intelligence, and military organizations will improve our ability to counter terrorists everywhere. We will coordinate training and education across multiple levels both national and international ensuring common standards and approaches to recognizing key indicators of future terrorist actions.</p> </div> <div> <h4>1.2 Strategies</h4> <ul style="list-style-type: none"> Assist the Department of Defense and Department of State to meet the goals and objectives of the National Security and National Military Strategies. Proactively conduct and coordinate "prevent and disrupt" law enforcement operations through the Department's Joint Terrorism Task Force, particularly with the FBI. Involve state, local, and tribal governments and the private sector in actions to prevent terrorism and reduce the consequences of terrorist attacks. Establish common preparedness standards and foster inter-agency coordination across all levels of government. Expand existing weapons of mass destruction, first response, and other nationwide initiatives. Promote interagency coordination and cooperation in support of international resident and advisor programs. </div> </div>

Introduction

The seal and signature of the U.S. Department of Homeland Security were created to embody our mission and values.

As the public representation of our department, it must be reproduced with care and precision. Consistent reproduction across all types of applications—print materials, presentations, advertisements, websites, signage and even stationery—will reinforce our mission and result in a greater awareness of the Department of Homeland Security.

This manual explains the elements of the seal, the signature and the basic specifications for reproduction, including color specifications and size requirements. Examples of distortions and misuses to avoid have also been included. Please make use of these guidelines and the approved digital artwork when reproducing the Homeland Security seal and signature.

Any questions regarding the use or application of the Homeland Security seal and signature should be directed to:

Office of Public Affairs
U.S. Department of Homeland Security
202 282 8013 tel

Seal and Signature

The Homeland Security signature is made up of two elements—the seal and the wordmark.

The Seal:

A graphically styled white American eagle appears in a circular blue field. The eagle's outstretched wings break through an inner red ring into an outer white ring that contains a circular placement of the words "U.S. DEPARTMENT OF" in the top half and "HOMELAND SECURITY" in the bottom half. The outer white ring has a silvery gray border. As in The Great Seal, the eagle's left claw holds an olive branch with 13 leaves and 13 seeds while the right claw grasps 13 arrows.

Centered on the eagle's breast is a shield divided into three sections containing elements that represent the homeland "from sea to shining sea." The top element, a dark blue sky, contains 22 stars representing

the original 22 agencies and bureaus that have come together to form the department. The left shield element contains white mountains behind a green plain underneath a light blue sky. The right shield element contains four wave shapes representing the oceans, lakes and waterways alternating light and dark blue separated by white lines.

The Wordmark:

The words "Homeland Security" are placed to the right of the seal and set in upper- and lowercase letters. The words have been set in the Monotype version of the font Joanna. Each letter has been carefully drawn and placed. Use only the approved digital artwork files and never typeset, recreate or alter the seal or signature. Any change will cause inconsistencies, lessening the impact and compromising the trust of the Homeland Security seal and signature.

Homeland Security Signature: Preferred Configuration

Seal

Homeland Security

Wordmark

Seal and Signature Variations

The preferred signature lockup shown previously should be used in all applications whenever possible. If there is insufficient horizontal space, an alternate lockup that is vertically oriented can be used. In this lockup, the wordmark is centered underneath the seal, as shown in the exhibit below.

The alternate signature lockup should be used only when the preferred lockup cannot be reproduced accurately.

Use of the seal alone is reserved for special instances such as lapel pins or podium signs.

As with the preferred version of the signature, always use the approved digital artwork.

Vertical Signature

Seal Alone

Clearspace and Minimum Size

To ensure the prominence and legibility of the Homeland Security signature, always surround it with a minimum amount of clearspace. This clearspace isolates the signature from competing graphic elements, such as text, photography or background patterns, that may divert attention from the signature. As shown in the exhibit below, the clearspace for the signature is equal to the height of the uppercase letter “H” in the word “Homeland” in the size at which the signature is reproduced.

The Homeland Security signature can be used in a wide variety of sizes, but when it is sized too small, legibility is reduced and its impact is diminished. The minimum size is determined by the diameter of the seal. In printed material, the signature should not be reproduced with the seal smaller than .625" in diameter.

Primary Color Palette

The Homeland Security signature should be reproduced in full color—Homeland Security Blue, Gray, Green, Light Blue, and Red—whenever possible. These colors are equivalent to the PANTONE numbers listed in the table below. For 4-color process printing, refer to the CMYK values shown. For on-screen applications (video, broadcast), refer to the RGB Video values specified. For Web applications, refer to the RGB Web values.

The PANTONE and CMYK values provided can be used on both coated and uncoated paper when printing. Although variations in color will occur, try to match the colors as closely as possible.

The colors shown throughout this manual have not been evaluated by Pantone, Inc., for accuracy and may not match the PANTONE® Color Standards. Please refer to the current edition of the Pantone color formula guide. PANTONE® is a registered trademark of Pantone, Inc.

	Pantone®	C	M	Y	K	R	G Video	B	R	G Web	B
Homeland Security Blue	2955 C	100	45	0	37	0	47	128	0	51	102
Homeland Security Gray	Cool Gray 6 C	0	0	0	28	176	177	179	153	153	153
Homeland Security Red	187 C	0	100	79	20	165	0	33	204	0	51
Homeland Security Light Blue	307 C	100	16	0	27	0	112	178	0	102	153
Homeland Security Green	370 C	56	0	100	27	89	134	0	51	153	0

Typography

Typography plays a major role in shaping a brand. To help create a consistent look and feel for all Homeland Security communications, one typeface—Joanna MT—is preferred. This typeface has been chosen to complement the look of the Homeland Security wordmark.

When Joanna MT is not available on your computer, you may substitute Times New Roman for Joanna MT.

Homeland Security Signature Color Variations

The preferred version of the Homeland Security signature is the full-color positive signature. This version should be used for all applications when-ever possible. Signature artwork is available in spotcolor (PANTONE), 4-color process (CMYK) and RGB Video and RGB Web versions. These color variations also apply to the alternate signature.

If reproduction is limited to one color, signatures in Homeland Security Blue with a tint and black with a tint are available. When the signature is placed on a dark background color or photograph, use the reverse versions of the signature.

Homeland Security

Signature Color Variations

When reproduction methods cannot accommodate color tints, use the signature variations shown below. The variations include a 1-color blue, a 1-color black and full reverses without tints.

A special use signature has been created for certain reproduction methods such as foil stamping, engraving, etching and embossing. In this signature, the white areas of the seal are transparent. Use of this signature is limited to these special applications only.

Seal Alone, 1-color black reverse	DHS_S_KR.eps

Background Control

White is the most effective background on which to reproduce the full-color Homeland Security signature because it provides the colors with a clean, crisp contrast. The reverse version of the full-color signature can also be used with Homeland Security Blue and a 75% tint of black as background colors.

If the full-color signature appears on light backgrounds or photographs, there must always be sufficient contrast between the background or photograph and the signature colors. If the signature is being placed on a background or photograph where the full-color signature will be illegible, use one of the reverse signatures.

Signature Misuses

Incorrect use of the Homeland Security signature can compromise its integrity and effectiveness. Shown below is a small and by no means comprehensive sample of possible misuses.

To ensure accurate and consistent reproduction of the signature, always use the approved digital artwork. Never alter, add to or recreate the Homeland Security signature.

Do not change the arrangement of the preferred signature lockup.

Do not change the arrangement of the alternate signature lockup.

Do not change the color of the wordmark or seal.

Do not re-typeset or outline the wordmark.

Do not place the seal within a shape.

Do not distort the seal or wordmark.

Do not use the full-color signature with the color background showing through the seal.

Signature Naming Convention

Use this naming convention guide to select the appropriate electronic signature for reproduction. The file formats provided are explained below.

EPS Format:

The EPS format is for applications that require high-resolution artwork for reproduction—for example, anything that is press-printed or for large-scale projects such as banners or signage. EPS signatures can be proportionally scaled (enlarged and reduced) without degradation in quality. EPS files can be imported into or opened by page layout and illustration software such as QuarkXPress, Illustrator or Photoshop.

BMP, JPEG and TIF Formats:

BMP signatures are suitable for importing into applications such as Microsoft Word, Excel or Powerpoint. BMPs can be proportionally reduced but should only be slightly enlarged, otherwise distortion of the signature will occur. JPEGs have been created for use in web and Microsoft applications. JPEGs should never be proportionally enlarged beyond the size supplied as the quality will degrade quickly. TIF signatures are suitable for importing into applications such as Microsoft Word, Powerpoint and page layout programs. TIFs can be proportionally reduced but should only be slightly enlarged, otherwise distortion of the signature will occur.

Compatible with Mac or PC:

EPS, BMP, JPEG and TIF formats work on Macintosh and Windows platforms.

Color Category:

4 = CMYK (4-color process)

1 = one spot color — Homeland Security Blue

S = spot (Pantone) Homeland Security Blue, Gray, Green, Light Blue and Red

Print only

K = Black

V = RGB Video

W = RGB Web-safe

Tint:

T = signature with tints

Alternate:

at = alternate — alternate signatures are used only in a constrained horizontal space.

Special Usage:

su = special usage — used only on approved applications.

DHS_S_4_R_T_at_su.ext

Cabinet:

DHS = Department of Homeland Security

Seal:

S = Seal Alone — for use in special instances such as lapel pins.

Reverse:

R = reverse — for use on a dark background.

. Extension: File type and what it is used for.

How Images Are Supplied

.eps = EPS (for print and vendor use) Supplied as vector-based art, scalable for large applications; these files may be used at any size. Ideal for high-end print and display use.
Color Formats: CMYK, RGB, Grayscale, spot (Pantone) color

.bmp= BMP (for PowerPoint, Word and other publishing software) Supplied at 100 DPI for optimum appearance in presentations and laser prints.
Color Formats: RGB, Grayscale

.jpg = JPEG (for Internet, intranet, PowerPoint and Word) Supplied at 100 DPI for optimum appearance online. Ideal when a small file size is needed.
Color Formats: CMYK, RGB, Grayscale

.tif = TIFF (for PowerPoint, Word and other publishing software) Supplied at 125 DPI for optimum appearance in presentations and laser prints.
Color Formats: CMYK, RGB, Grayscale

The abbreviations in the shaded fields appear in a file name only when applicable to a given signature.

U.S. Department of Homeland Security Branding System

U.S. Department of Homeland Security Branding System

The objectives of our branding system are to:

- Focus and build impact for Homeland Security, reflecting a more modern and non-bureaucratic form of government.
- Strengthen and unify the department.
- Help state and local entities, as well as the general public, understand the role and the structure of the department.
- Simplify and streamline communication.

What makes a powerful branding system?

- It must be clear from the user/customer perspective.
- Minimize the use of acronyms. An abundance of acronyms do not communicate clarity and directness.
- No more than two levels should be branded. Too many layers and too many symbols suggest an expected government bureaucracy and a disparate organization with lack of focus.
- Our branding system should not be viewed as an organizational chart.

U.S. Department of Homeland Security Branding System

Level I — Cabinet

Senior and staff members of the department who represent the U.S. Department of Homeland Security.

Example: Business Card

Example: Signage/Wall Plaque

U.S. Department of Homeland Security Branding System

Level II — Competency

Senior and staff members who represent the five directorates. To broaden the master brand's capabilities, a descriptor is added to communicate a specific competence.

The five competencies are as follows:

Science and Technology
Information Analysis and Infrastructure Protection
Border and Transportation Security
Emergency Preparedness and Response
Management

Example: Business Card

Example: Signage/Wall Plaque

U.S. Department of Homeland Security Branding System

Level III — Public Facing Entities

Bureaus and agencies with high visibility and interaction with the general public. These five entities use the DHS Seal “locked up” with their specific name set in standardized DHS typography and color.

U.S. Department of Homeland Security Branding System

Level III — Public Facing Entities — Endorsed

Bureaus and agencies with high visibility and interaction with the general public. Because of their strong brand equity, these two

entities retain existing identities and carry an endorsement link to the Department of Homeland Security.

Example: Business Card

Example: Signage/Wall Plaque

Example: Business Card

Example: Signage/Wall Plaque

U.S. Department of Homeland Security Branding System

Level IV — Programs, Locations and Centers

A program name should appear as the second line of address copy following “U.S. Department of Homeland Security.” It can also appear as a headline on a brochure, as a supporting message or as a primary message on a wayfinding sign. A program name should never be “locked up” to the Homeland Security identity.

A location should appear as the first line of address copy followed by “U.S. Department of Homeland Security.” Like a program name, it can also appear as a headline on a brochure, as a supporting message or as a primary message on a wayfinding sign.

Public Facing Entity Signature Color Variations

U.S. Citizenship and Immigration Services Signature Color Variations

The preferred version of the public facing entity U.S. Citizenship and Immigration Services Homeland Security signature is the full-color positive signature. This version should be used for all applications whenever possible. Signature artwork is available in spot color (PANTONE), 4-color process (CMYK) and RGB Video and RGB Web versions. These color variations also apply to the alternate signature.

If reproduction is limited to one color, signatures in Homeland Security Blue with a tint and black with a tint are available. When the signature is placed on a dark background color or photograph, use the reverse versions of the signature.

U.S. Immigration and Customs Enforcement Signature Color Variations

The preferred version of the public facing entity U.S. Immigration and Customs Enforcement Homeland Security signature is the full-color positive signature. This version should be used for all applications whenever possible. Signature artwork is available in spot color (PANTONE), 4-color process (CMYK) and RGB Video and RGB Web versions. These color variations also apply to the alternate signature.

If reproduction is limited to one color, signatures in Homeland Security Blue with a tint and black with a tint are available. When the signature is placed on a dark background color or photograph, use the reverse versions of the signature.

Signature Color Variations

When reproduction methods cannot accommodate color tints, use the signature variations shown below. The variations include a 1-color blue, a 1-color black and full reverses without tints.

A special use signature has been created for certain reproduction methods such as foil stamping, engraving, etching and embossing. In this signature, the white areas of the seal are transparent. Use of this signature is limited to these special applications only.

Seal Alone, 1-color black reverse	DHS_tsa_S_KR.eps

Signature Naming Convention

Use this naming convention guide to select the appropriate electronic signature for reproduction. The file formats provided are explained below.

EPS Format:

The EPS format is for applications that require high-resolution artwork for reproduction, for example, anything that is press-printed or for large-scale projects such as banners or signage. EPS signatures can be proportionally scaled (enlarged and reduced) without degradation in quality. EPS files can be imported into or opened by page layout and illustration software such as QuarkXPress, Illustrator or Photoshop.

BMP, JPEG and TIF Formats:

BMP signatures are suitable for importing into applications such as Microsoft Word, Excel or Powerpoint. BMPs can be proportionally reduced but should only be slightly enlarged, otherwise distortion of the signature will occur. JPEGs have been created for use in web and Microsoft applications. JPEGs should never be proportionally enlarged beyond the size supplied as the quality will degrade quickly. TIF signatures are suitable for importing into applications such as Microsoft Word, Powerpoint and page layout programs. TIFs can be proportionally reduced but should only be slightly enlarged, otherwise distortion of the signature will occur.

Compatible with Mac or PC:

EPS, BMP, JPEG and TIF formats work on Macintosh and Windows platforms.

<div>Color Category: 4 = CMYK (4-color process) 1 = one spot color — Homeland Security Blue S = spot (Pantone) Homeland Security Blue, Gray, Green, Light Blue, and Red Print only K = Black V = RGB Video W = RGB Web-safe</div> <div>Tint: t = signature with tints</div> <div>Alternate: at = alternate — alternate signatures are used only in a constrained horizontal space.</div> <div>Special Usage: su = special usage — used only on approved applications.</div>
